

WORKSHEET 01

VISUAL ARTS: UPPER PRIMARY

01

Wander through the gallery and find an artwork that you find interesting. Spend a few minutes with the artwork, looking at the images, colours, signs and symbols. Are there any people shown in the artwork? Think about the artist who created the artwork then think about the events that might have inspired the artist.

02

Think about the other people who might have first-hand experience of the events (or themes) related to the artwork and about a circumstance or situation they might have been in during (or after) the Vietnam War. Tick the activities you think they might have experienced or been involved with. Add your own words to the list if you need.
