Dear Michael

Thank you for providing a copy of the CD developed by your organisation to address Modules 2.09 – Building Evacuation Systems and 2.10 Mechanical Venting and Air Handling.

The CD itself is an excellent example of how simple multi-media presentations can be used to achieve desired learning outcomes. Subsequently I am happy to provide permission for OTEN to use the file footage of NSW Fire Brigades resources that have been incorporated in this presentation and look forward to receiving a copy of the release version.

Yours sincerely
